

AI ROBO-X

AI Drives Economic Opportunities

Launch By:

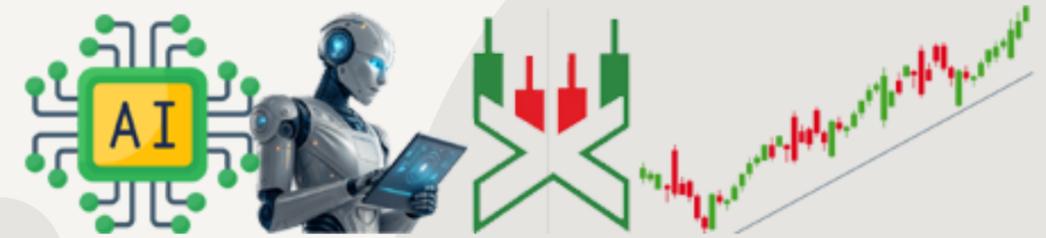

CRYPTO-ROBOTS LIMITED

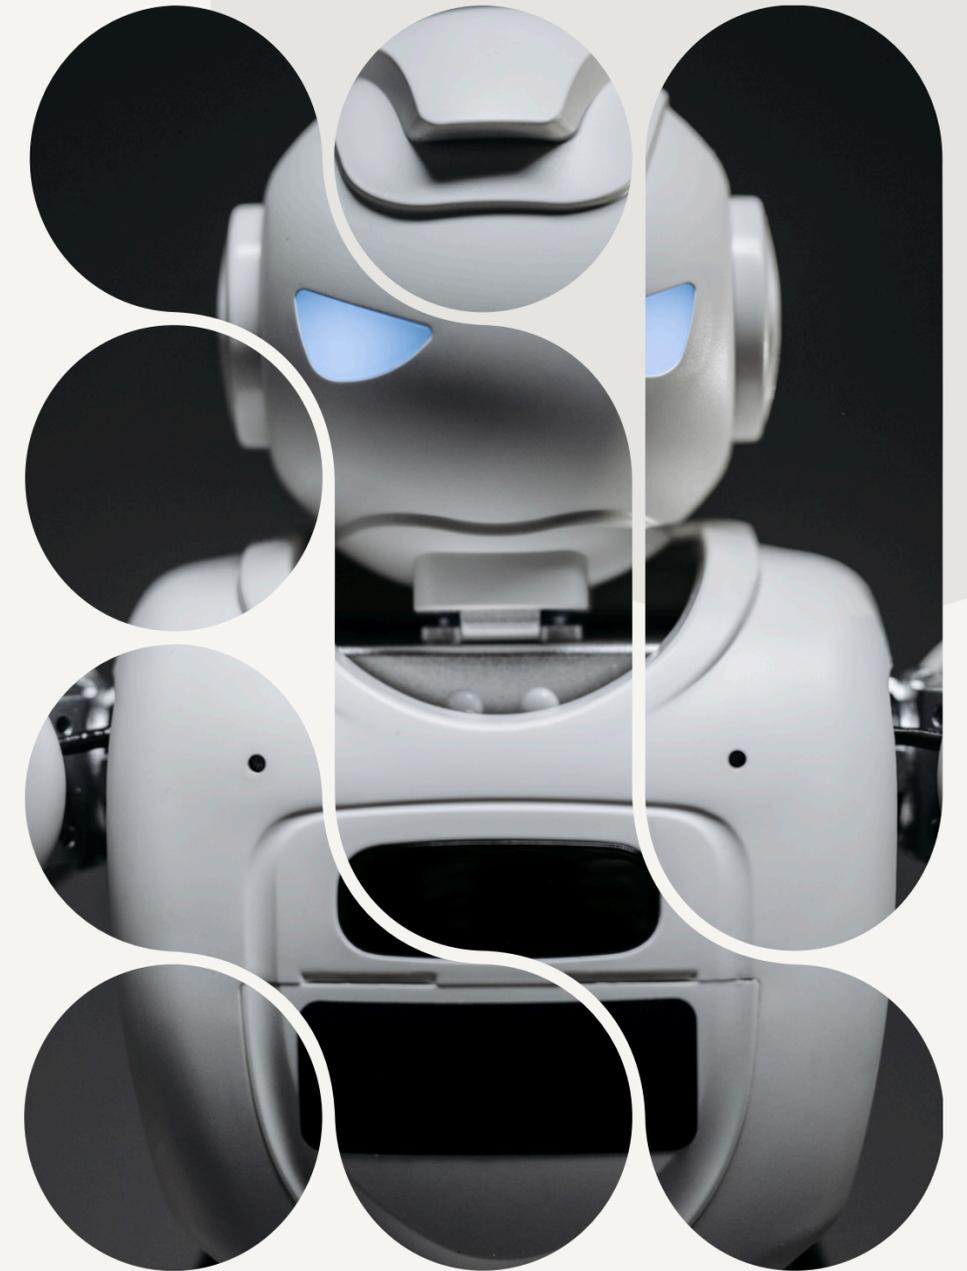

Company number

011390196

INTRODUCTION

AIROBOX is an innovative investment platform designed to make professional trading accessible to everyone. We combine expert-led trading strategies with a transparent, technology-driven system that prioritizes capital management and consistent performance. Through our structured investment plans, funds are managed by experienced traders, with profits generated and shared—typically 5–10% retained by the company for operations and growth, while the remaining returns are distributed among investors. AIROBOX also features a 7-level affiliate system, rewarding community growth and long-term participation. Our mission is to build a secure, scalable, and fair ecosystem where investors benefit from expertise, automation, and shared success.
